SUMMARY

I am an experienced and passionate Front End developer with knowledge of HTML, CSS, JavaScript, React, Next.js and other. Successfully deliver projects on time, within budget and with a focus on user-friendliness. I thrive in challenging and dynamic environments where I can help make a positive difference to both everyday life and business. I am a fast learner, responsible and always up for a challenge.

PROJECT EXPERIENCE

Portfolio, Link [React, Next.js, SASS, API]

My portfolio was written on Next JS to provide support for the front-end and back-end with use framer-motion effects and some animation.

Money Guard, Link [React, Redux, CSS, API]

Applications for calculating your expenses and income in a convenient interactive form, tabular values and a dynamic chart with a choice of month and year, you can also find the exchange rate for the current day and the total balance of your account for the entire period. Role: Team Leader, developer. Build project on github, check for build errors and live page performance. Personal improvements.

Car Rent, Link [React, Redux, CSS, mockapi]

On this site you can choose a car for rent, as well as filter by brands, mileage and price. You can also choose your favorite cars. Role: developer.

EXPERIENCE
